

The **Meteor® DP 40 Pro**, the versatile digital press manufactured by MGI Digital Graphic Technology®, is now available with a continuous envelope feeder, the **EnvelopExpress®**

The new **EnvelopExpress®** is an ideal solution for short and medium run jobs, allowing customers to easily integrate four-color process and fully personalized envelope printing capability into their digital portfolio. An integrated feeder allows for continuous delivery, maximizing output volume without interruption of the product cycle, and accommodates envelopes in a wide variety of sizes, ranging from **4 x 5.5 inches (100 X 140 mm)** to **12.4 x 14.2 inches (315 X 360 mm)**.

In addition, the **EnvelopExpress®** is designed to ensure a fast transition between **paper and plastic substrates**, allowing the user to remove the feeder and return to full sheet mode within minutes. The feeder is designed to complement the high volume capacity of the **Meteor® DP 40**, which can handle up to **2,100 letter or A4 sheets per hour**. The **EnvelopExpress®** has a capacity of approximately **1,000 envelopes** at once; however, the dynamic continuous feed process allows for nonstop four-color printing in **variable data**, with a full bleed on three sides.

The **EnvelopExpress®** integrated compressor and control set (**including a photocell**) allows for a variety of options, such as automatic envelope fanning, and offers precise registration capabilities. Printing profiles for multiple types of substrates can be stored in **the Meteor® DP 40's memory**, allowing previous jobs to be archived for easy retrieval.

The **EnvelopExpress®** has a capacity of approximately **1,000 envelopes** at once; however, the dynamic continuous feed process allows for nonstop four-color printing in **variable data**, with a full bleed on three sides

The **Meteor® DP 40** is one of the most versatile **digital presses** on the market, with the capability to print on a wide range of paper or plastic substrates (including **PVC, polycarbonate, Teslin®, PET, vinyl, Artisyn®, and static cling**) in a variety of sizes up to **300gsm/110lb**. With the addition of the **EnvelopExpress®**, MGI offers customers a complete digital printing and finishing solution.

Electrical power supply 230 V / 50 Hz
Electrical protection (16 A) L x w x H: 120 cm x 60 cm x 100 cm Weight - about 88 kg
 * **Envelope size** : 110 x 220mm – 80 g.

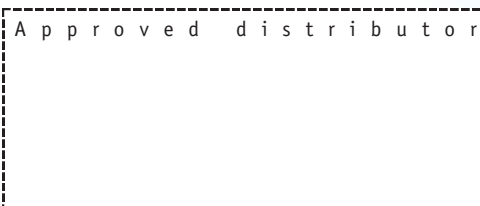

Optional : Delivery stream

Dimensions : L x w x H : 140 cm x 42 cm x 130 cm

Weight - about 15 kg
